

To Whom It May Concern:

We are happy to provide a letter of reference for Capco Construction, the company that handled our deck project in July of 2009.

Capco provided excellent service beginning with the initial meeting that included photos of previous deck projects and letters of reference from past customers. Within a few days, we were provided with a written estimate that was very competitive and provided excellent timelines for the start and completion of our deck project. The work included removing the existing double-tiered deck and replacing it with a similar structure with the addition of a two-stage set of stairs leading down to the front lawn.

The project was completed within a couple of weeks and over that time period Frank from Capco checked with us regularly to ensure we were pleased with the project. At the conclusion of the work, the job site was clean and the old materials had been removed.

The finished deck, as you can see from the photos, was very professionally constructed, meeting all regulations as well as our own project plan.

We would certainly recommend Capco Construction to anyone considering a similar project. The company does excellent work!
